NXT Generation Door Systems

Humphrey “NXT Generation” door systems represent evolution of the door from the components used in its design to the techniques used in its manufacture and the precision employed to measure its performance. By design, Humphrey’s doors incorporate the highest quality materials, tested and proven hardware, and the latest in energy efficient low-e glass and glass packages. Our craftsmanship in the manufacturing process ensures that our doors are built with care to precise tolerances creating some of the most beautiful and durable door systems available in the marketplace today.

Built for the prairies? You Bet!

- ✓ Beauty & style?
- ✓ Performance in the extreme cold of the north?
- ✓ Rain and moisture of the southern prairies?
- ✓ Dust & High winds that blow?
- ✓ Solitude & Tranquility of North Western Ontario?
- ✓ Noise of the big city?
- ✓ Built to endure and last?
- ✓ Meet or exceed industry standards?

Be introduced to “NXT Generation” by Humphrey and see why our door systems should be your choice for your home. Not all doors have evolved this much!

**A Door is a Door!
What’s the difference?**

Your door is one of the most highly used manufactured building products in your home and could also be one of the most important choices you will make when considering its purchase. While all the componentry may seem the same and look the same “WHO you choose to make it and install it” makes a big difference!

- Style? Any style and configuration you can imagine.**

| ✓ Entrance doors | ✓ Beautiful Glass Options |
| ✓ Garden doors | ✓ Quality materials |
| ✓ Patio doors | ✓ Care & Craftsmanship |
| ✓ Colours/Stains | |

Humphrey’s commitment to stand behind all the products we offer through our warranty. Talk about making an entrance!

Preferred Dealer Advantage

The performance of any door is directly proportional to the quality of the installation, and through Humphrey’s “Preferred Dealer” network we have some of the best installers in the business. Our list of preferred dealers across Western Canada have years of experience to ensure quality installations, which can directly contribute to the overall performance of the finished product. Trust Humphrey and our Preferred Dealer to make an entrance for your home!

Quality Guarantee

Manufacturing for over 50 years, our comprehensive quality control system, combined with our attention to detail through our craftsmanship, have earned us a reputation of providing outstanding value to our dealers and their customers.

No “Service Truck”. Those are for companies that have too many service issues to deal with. Should something be found wrong in our product due to manufacturing error or product defect, please contact your “Preferred Humphrey Dealer”. They will ensure you are taken care of! With thousands of doors being shipped across Western Canada every year, Humphrey proudly stands behind what we sell!

We take great pride in our work. Exclusive to Humphrey, this in house quality control program was designed by us to have each Humphrey door inspected by our workers at every stage of production. Every employee is trained to ensure a clear understanding of our standards, and it is followed up by the “Have You Checked” labeling. This final visual inspection prior to shipping ensures that Quality Control is completed in house and not at your house.

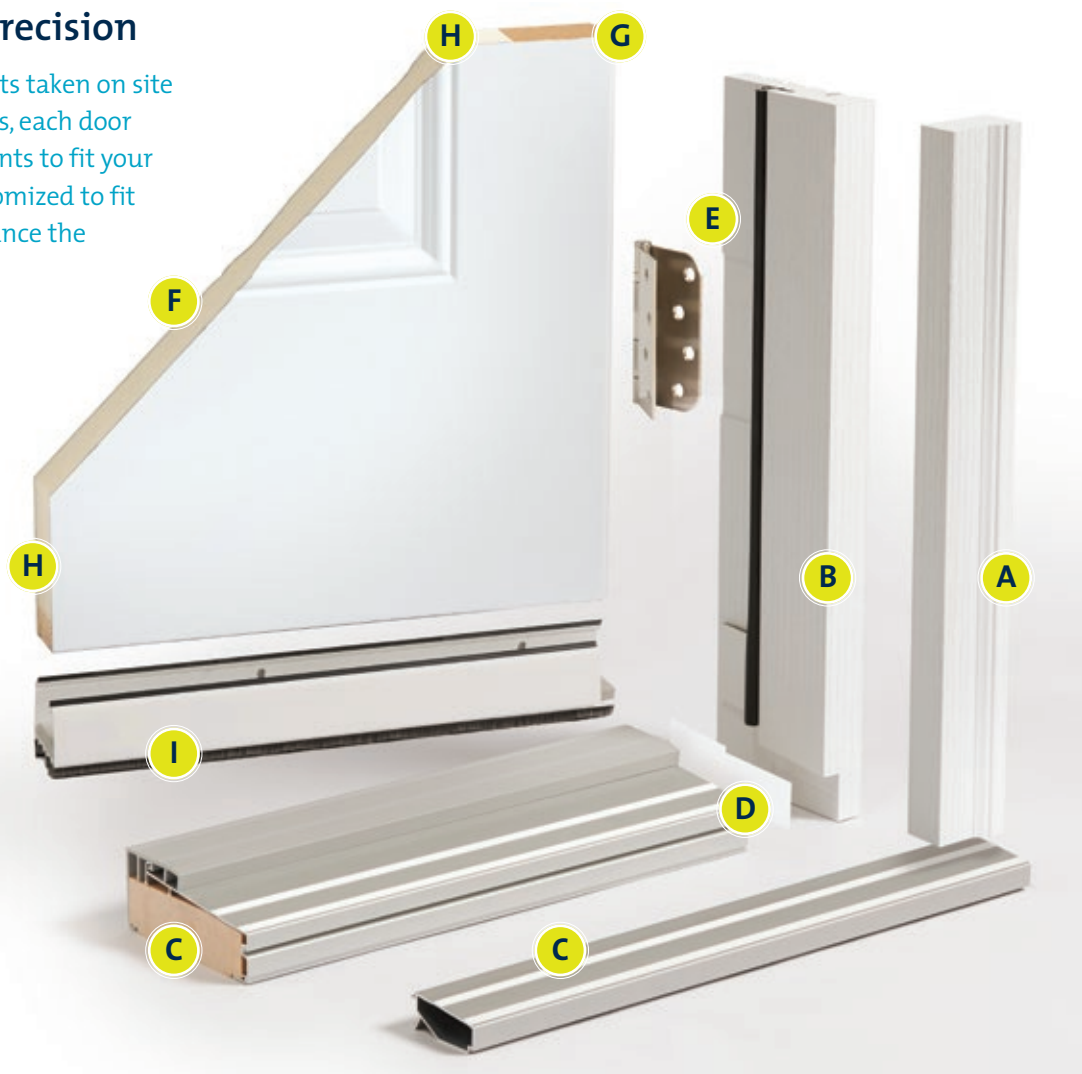

Why Humphrey?

NXT Generation Door Components

Made-to-Measure Precision

Based on precise measurements taken on site by Preferred Humphrey Dealers, each door is made with quality components to fit your exact specifications, fully customized to fit your individual taste and enhance the design of your home.

Humphrey manufactures all their doors to suit the customers' requirements, with regards to configuration and dimensions. Please feel free to contact one of our dealers to discuss sizes, configuration and potential limitations.

A Composite technology solid brickmould

- Moisture and rot resistant
- Brickmoulds come in wood grained white and stainable tan as well as vinyl wrapped "wood" option
- Made to measure "built out brickmould" option available to suit special requirements

COMPOSITE DOOR JAMBS

B Composite technology solid door jamb

- Moisture and rot resistant
- Jambs available in wood grained white or stainable tan
- Vinyl wrapped finger jointed "wood" option as an affordable alternative

VINYL WRAPPED WOOD JAMBS

C Heavy duty sill assembly

- Durable PVC thermal break, solid sill blocking, extruded aluminum threshold and nosing

D Corner Sill Assembly

- Gasket and sealed sill corners, ensure tight connections that prevent air and water penetration

E Hinges

- Heavy duty plated ball bearing hinges ensure smooth easy operation, in brass, nickel and black
- Add beauty and guaranteed not to rust

F High density polyurethane core

- Provides superior insulation value and helps reduce sound transmission

G Composite edges

- Composite edging prevents moisture from penetrating into the door slabs cavity to a much greater degree than normal wood edges

H LVL stiles and rails

- Laminated veneer lumber (LVL) provides added rigidity, are moisture resistance and not as susceptible to twist or warp like regular finger jointed wood components

I Adjustable Sweeps

- Rigid PVC door sweeps provide added protection against the elements

Reinforced Mullion Components

- All mulled door segments are structurally reinforced for added strength and rigidity
- Mullions come in wood grained white and stainable tan

Striker Plates

- Anodized adjustable striker plates in brass, nickel and black allow for easy onsite adjustment and added security against forced entry

Options

PEEP HOLES

DEADBOLT DRILLING

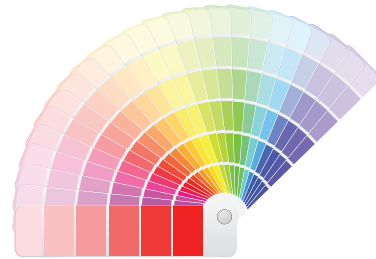

Entrance Doors

The focal point of any home, doors, help to create a curb appeal that becomes the welcome point to your home that greets every visitor. Front doors have now become entrances, six panel single doors are now being transformed into door and sidelight combinations. The miniscule half round door lights have given way to elaborate, multi coloured decorative leaded door lights.

Whatever the style, the final design of the door is your creation, custom built by Humphrey to your specifications. The choices are endless and can be mixed and matched to fit your budget or the unique look you are trying to achieve. Make the first impression of your home a lasting one, with a NXT Generation door system from Humphrey.

Custom Colours

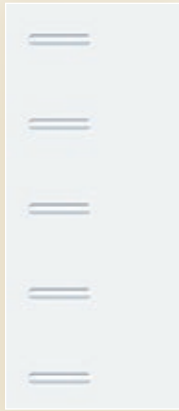

- All of our smooth fibreglass and steel doors are available in factory finish white, with the option to upgrade to a factory applied paint to match any colour request with an approved colour swatch.

Bigger and Better

Now you can make your entrance a truly magnificent one by choosing one of Humphrey's fiberglass woodgrain eight foot high doors in standard widths or our new 42" wide series.

These doors can be stained or painted to fit your style.

Wood Grain Fibreglass Doors

Wood doors have evolved into technologically advanced, durable, stainable fiberglass door panels. Feel the warm rich texture of real wood without the maintenance, and potential of moisture damage. Stainable fiberglass skin with "High definition panel embossments" offer an authentic appearance of oak and mahogany real wood finishes. These beautiful woodgrain embossed doors can be finished with one of our 18 stains or custom painted to suit your home's style.

The old wood sills have been upgraded to engineered multi-component sill systems tied into the overall performance of the door. At the same time, once locked it provides secure comfort through an added deadbolt or multi-point locking system.
